Dear Christine,

What a special day we had, on November 6, 2007, when your Aroma 5500 Specialty Coffee Maker arrived at St. Leonard School.

There was a chill in the outside air, but the aroma and warmth provided by the coffee maker helped to give us a warm feeling on the inside. We found that having this special coffee maker available to us for the day was a real morale booster.

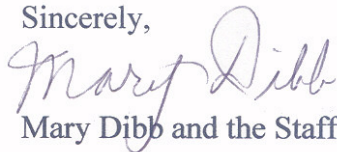

We all enjoyed trying the various choices of coffee, tea, and hot chocolate. Even the non-coffee drinkers, were able to find something to choose as a warm morning drink.

Some of the comments from the staff:

- The machine was easy to use
- The variety of choices was outstanding
- I had never tried mocha before, but I dared to try and I was pleasantly surprised how much I liked it
- The Espresso provided a great spark to the start of the day
- The coffee was delicious, a wonderful flavor

Thanks for bringing this machine to us, your service and help was top notch. We will tell others about the Aroma 5500 Specialty Coffee Maker.

Sincerely,

Mary Dobb and the Staff of St. Leonard School
